# CORIGEN<sup>®</sup> MEDICATION SAFETY PROGRAM

If you or someone in your family is taking medications that weren't safe or effective, wouldn't you want to know? Now you can!

Discover if the medications you take now – or could take in the future – are right for you.

## How it works:

1. Eligible covered individuals complete the online enrollment form to have a DNA test kit shipped to their home.
2. Simply follow the instructions in the kit for taking a saliva sample and return the kit via the US Postal Service with the prepaid return shipping label.
3. Pharmacists from Coriell<sup>®</sup> Life Sciences' network will analyze your results to see how your DNA, combined with other factors, affects the medication(s) you take.
4. Once complete, you will receive a notification to schedule a phone call with a Coriell Life Sciences Program pharmacist who will receive your results and may make recommendations to you and your physician.

Learn more at [coriell.com/healthtrust](https://coriell.com/healthtrust) or by calling 888.456.9184.

# PRESCRIPTION BENEFITS

## Covered Medications

- Your coverage is based on a list of covered medications known as a formulary.
- A prescription drug formulary is a list of preferred drugs established to encourage the use of safe, effective generic and brand-name medications while helping to control prescription drug costs.
- Certain prescription drugs, such as those that have a direct generic or brand-name therapeutic equivalent medication available, may be excluded from coverage.
- The formulary list is amended from time to time.

## How It Works?

- Providers will have access to the formulary at the point of prescribing (through online prescribing, electronic medical record platforms, or by calling CVS Caremark) and will be able to prescribe covered medications based on this information.
- Prescribers will also have the ability to request a coverage review by contacting CVS Caremark, if there are documented medical reasons for a non-formulary medication to be utilized.
- Log in to your Secure Enrollee Portal (SEP) at [www.healthtrustnh.org](http://www.healthtrustnh.org) to access the most up-to-date formulary information.
  - ✓ Real-time “Check Drug Cost & Coverage” tool by clicking on the CVS Caremark tile or by using the CVS Caremark mobile app
  - ✓ Online searchable drug list

# PRESCRIPTION BENEFITS

## Specialty Medications:

- Specialty medications are used for the treatment of chronic and/or genetic conditions, such as multiple sclerosis, rheumatoid arthritis or hepatitis C, and are often injected or infused.
- Exclusively filled by CVS Caremark's Specialty Pharmacy with access to dedicated nurses to help manage complex conditions and treatment.
- Questions or to get started with CVS Caremark's Specialty Pharmacy – call **800.237.2767**.

## Prior Authorization:

- Prescriptions for certain medications require prior authorization – also known as a coverage review – to ensure the medication is cost-effective, safe and clinically appropriate.
- Your plan requires prior authorization for certain medications, such as Botox, Myobloc, Wellbutrin and its generics, Specialty Medications, Compound Medications. Required prior authorizations are subject to change from time to time.
- Your retail pharmacist will provide you or your doctor with a toll-free number to call in order to obtain approval. The CVS Caremark Mail Service and Specialty Pharmacies will contact your doctor directly for approval.

## Preventive Vaccines:

- Certain vaccines (i.e., flu, shingles, pneumonia) may be obtained at any network retail pharmacy location – choose from over 64,000 locations!
